3. **Site selection of fireworks displays, the transportation and ground discharge of fireworks shall conform to NFPA 1123, 2018 Ed. and NFPA 1124, 2017 Ed. Off-shore discharge of fireworks must obtain a marine event permit issued by the U.S. Coast Guard, and shall conform to USCG regulations, Title 46, CFR.** Fireworks shall NOT be displayed within one hundred (100) feet of any building of any sort, or where the discharge/failure to fire/faulty firing/or fallout of any fireworks or other objects would endanger any persons, buildings, structures, forests or brush, or fifty (50) feet from the nearest above ground electric or telephone lines, tree, or other overhead obstruction. In no case shall a display be fired within one half (1/2) mile of any hospital, nursing home, or nursing care center.
 - a. Distances for outdoor aerial display sites shall demonstrate compliance with distances established by NFPA 1123, Table 5.1.3.1 Distances for Outdoor Aerial Shell Display Sites: Minimum Separation Distances from Mortars to Spectators for Land or Water Displays.
 - b. Display sites based on floating vessels or platforms shall demonstrate compliance with guidance

established provided by NFPA 1123 Chapter 6 Floating Vessels and Floating Platforms.

4. Spectators at a display of fireworks shall be restrained behind lines or barriers as designated by local authorities and as specified in **NFPA 1123, Table 3-1.3**; but in no case less than two hundred (200) feet from the point at which the fireworks are to be discharged. Only authorized persons and those in actual charge of the display shall be allowed inside these lines or barriers during the unloading, preparation, or firing of fireworks.
5. All fireworks that fire a projectile shall be so set up that the projectile will go into the air as nearly as possible in a vertical direction, provided that where such fireworks are to be fired beside a lake or other large body of water, they may be directed in such a manner that the falling residue from the deflagration will fall into said body of water.
6. Any fireworks that remain unfired after the display is concluded shall be immediately disposed of or removed in a safe manner for the particular type of fireworks. The debris from the discharged fireworks shall be properly disposed of by the operator prior to departure from the premises. The operator, upon conclusion of the display, shall make a complete and thorough search for any unfired fireworks or pieces which have failed to fire or function, and shall dispose of the material in a safe manner. Such search shall be instituted at the earliest possible time following the conclusion of the display, but in no event later than the first period of daylight which follows the event.
7. **No fireworks display shall be held, and/or firing of shells must cease, when the wind velocity exceeds twenty (20) miles per hour.**
8. **QUALIFICATIONS OF OPERATORS:** A certified, experienced, competent operator with the knowledge of **NFPA 1123 "Code for Fireworks Display"** and **NFPA 1124 "Standard Code for Outdoor Display of Fireworks"** is required.
